DESCRIPTION: The Topi-CLICK® 35, 3Port™ uses the same technology as the Topi-CLICK® 35 – but with extra ports for faster and easier CLICK-Dosing™ of thicker medications. The advantages for the patient are added convenience and ease-of-use when dealing with the thickest or refrigerated topical preparations.

The Topi-CLICK® 35 3Port™ can be used to dispense approximately 5 mL to 35 mL of a topical preparation depending on the volume to weight ratio of base and formula used.

Features:
- Each CLICK or turn of the base moves the plunger approximately 0.25 mL of volume space, thereby dispensing 0.25 mL of cream on average. The most common number of CLICKs used for one dose is 2 CLICKs or 0.50 mL volume space.
- Audible, visual and tactile CLICK registrations for user recognition.
- Lower cost with simplified labeling – labels as fast and easily as a prescription bottle.
- Built-in applicator to prevent medication transference to unintended areas.
- “Refill” reminder badge helps patients to reorder in a timely manner.
- Designed to resist accidental discharge in purse, pocket or luggage.

Technical Specifications: Topi-CLICK® 35 3Port™
- Dispenser Volume: Up to 37 mL
- Delivery Volume: Up to 34 mL
- Dispense per CLICK: 0.25 mL
- Approximate Residual: 2.5 mL
- Approximate Priming: 0.50 mL or 2 CLICKs
- Doses Provided: When filling with 35 mL, the Topi-CLICK® will provide approximately 32 mL or 64 doses (at 2 CLICKs per dose or 128 CLICKs total.)

- Registered FDA device, Class 1 Dispenser.
- Topi-CLICK’s FDA Registration # is 3007142798 and the Device Listing Number is D003073.
- Materials compliant with FDA 21.177 code, which is the requirement for United States Pharmacopeia (USP 661).
- Made of FDA grade materials | BPA and Phthalate free | UV block.

*Volumes are approximate. As required for compounded prescription pharmaceuticals dispensed in volume dispensers, verify the weight to volume conversions thoroughly. See dispensing instructions at http://doselogix.com/downloads-how-it-works. One time use only.

Topi-CLICK® Patient Use Instructions

**STEP 1:**
Lift off the cap of the Topi-CLICK® container by placing your thumb under the tab on the protective outer cap and pressing upward.

**STEP 2:**
Turn the base to dispense the number of CLICKs specified in the instructions on your prescription label.

**STEP 3:**
Watch the visual indicators when rotating base. Be sure to leave the base in the registered CLICK position by aligning the base column with the tube node after each use.

**STEP 4:**
Apply topical medication by rubbing the area of skin as directed by your pharmacist using the built-in applicator. Continue rubbing until topical is completely absorbed into the skin.

**STEP 5:**
Replace cap after each dose to prevent evaporation. Be sure cap snaps on tightly.

**STEP 6:**
The bottom of the plunger is the indicating line; when it reaches the embossed line below the word “Refill” approximately 32 CLICKs are left. Approximately 12 CLICKs remain at the line above the word “Refill”.

**IMPORTANT:** The built-in applicator lessens the risk of cross-contamination and ensures the full dose is applied to the intended area.

Follow instructions on provider’s label before using the Topi-CLICK®.

Providing Patient Education

Providing patient education is a top priority with DoseLogix.

The NEW Easy-Unpack™, 25 package of Topi-CLICK® 35s, contain Topi Patient Tips™ that can be inserted into each prescription to provide simple patient instructions.

Healthcare providers can be assured patients are using the Topi-CLICK® topical dosing applicator properly and receiving an accurate dose every time.
Topi-CLICK® Filling Instructions

Read all information, specifications and instructions carefully before filling and dispensing Topi-CLICKs.

**STEP 1:**
Fill the Topi-CLICK® dispenser with the desired amount of topical formulations using a Topi-CLICK® Filling Station, a spatula, EMP jar, or nozzle.

**STEP 2:**
If needed while filling, stop periodically to tap the Topi-CLICK® on the palm of your hand, counter or Tap-n-CLICK™ to help settle the topical.

**STEP 3:**
Put the built-in applicator (cap with a hole) on the top of the Topi-CLICK® container by aligning the inside key tabs with the slots on the top of the container tube and snap on.

**STEP 4:**
Prime the Topi-CLICK® by turning the base until topical is dispensed and wipe off topical.

Be sure to leave the base in the registered CLICK position by aligning the base column with the tube node: See Step 3 of the Patient Use Instructions.

**STEP 5:**
Snap on the protective outer cap. (If the cap doesn’t fit tight, it’s an indication that the built-in applicator in #3 is not “snapped” down all the way.)

Note: Be sure to align ports when using the 3Port™ cap and applicator.

**STEP 6:**
Apply center of label to the side of the Topi-CLICK® container which is opposite the “REFILL” and graduation marks.

For more information on dispensing amounts per CLICK see the Product Specifications at DoseLogix.com. See Patient User Instructions for information on how to apply topical medications using Topi-CLICK. Verify formulas and weight per volume as required for compounded prescription pharmaceuticals.
